

I do not believe our Do Not Call List goes far enough. I would like to see a don't call us we'll call you list. . .meaning that the consumer would contact the company if and when they are interested in those services and the company would not have a right to contact anyone on the list ever. It is about time we take back our right to privacy and stop these people from invading our homes. There are other ways to attract business that don't annoy people.
